NRO REVIEW COMPLETED

25X1A

6 August 1968

MEMORANDUM FOR:

25X1A

Dear Ed:

1. Attached are a couple of copies of my reconstruction of your launch programs as put together from information from you and from the paper used recently by [redacted] I am sending this to you informally, not because I do not think it is high time to become more precise on the entire scheduling including plans for piggyback and experiments, but because we would rather see something of this sort come from you.

25X1A

2. In the spirit of this informality would you be good enough to:

- a. make any changes to launch dates which may be necessary,
- b. under CORONA, fill in the recovery dates,
- c. complete [redacted] CORONA information through January 1970,
- d. change the remarks columns as you see fit, and
- e. provide us with any additional information that may be pertinent.

I understand, for instance, that [redacted] may need to make some adjustments in the launches I have indicated in the right-hand remarks column. We should also know about other experiments, shades of the [redacted] in time to insure that such an experiment is given the best chances of success or, if it cannot be used because of intelligence priorities, this kind of decision can be made well in advance.
